DISKLOZ TECHNOLOGIES CORP. ANNOUNCES CANADIAN BLACK BOOK PARTNERSHIP VIN DECODE & INVENTORY VALUATIONS

For Immediate Release

Diskloz Technologies Corp Partners with Canadian Black Book to Enhance VIN Decoding and Vehicle Valuations

Edmonton, AB — May 27, 2024— Diskloz Technologies Corp, is excited to announce a strategic partnership with Canadian Black Book, the trusted leader in vehicle valuations. This collaboration aims to revolutionize the way businesses and consumers access accurate vehicle data and valuations through advanced VIN decoding technology. Through this partnership, Diskloz Technologies will integrate Canadian Black Book's comprehensive valuation data into its software, offering users real-time access to precise vehicle valuations. This integration will empower Automotive, RV & Powersport dealers, with the tools they need to make informed decisions quickly and efficiently.

"Partnering with Canadian Black Book aligns perfectly with our mission to provide cutting-edge technology solutions that enhance user experience and decision-making in the automotive industry," said Brandi Lindgren, CEO of Diskloz Technologies Corp. "This collaboration will set new standards in accuracy and reliability for vehicle data services." Canadian Black Book is renowned for its depth of experience and the robustness of its valuation data, which covers thousands of vehicle models across North America. "Together, we are setting the stage for a more transparent and efficient automotive market." Quotes Lindgren.

The partnership will also focus on the development of new features and enhancements that will further streamline the process of vehicle valuations and increase transparency for all parties involved in vehicle transactions.
